

Climate change and psychosocial wellbeing

Susan Clayton, PhD
Whitmore-Williams Professor of Psychology
The College of Wooster

SCHOOL OF ENVIRONMENT AND NATURAL RESOURCES

SEMINAR SERIES

Climate change present significant threats to mental health. This presentation will review some of the significant threats and the reasons for them, including direct threats from extreme weather events, indirect impacts from changes to social and economic systems, and effects that are more subtle and speculative. I will emphasize social disparities in vulnerability. I will close with a discussion of how society can become more resilient to the threats of climate change.

**THURSDAY,
JANUARY 28, 2021**

Time: 4:10 - 5:30 p.m.

Join via Zoom: <https://osu.zoom.us/j/94387426875?pwd=S2g4M2xPQXlvQmVqZTNVRy9KK0EvQT09>

Dial in: +1 312 626 6799
Meeting ID: 943 8742 6875
