APPOINTMENTS

The Ohio State University

2018 – Present, Professor, School of Environment and Natural Resources, College of Food, Agriculture and Environmental Sciences

2013 – Present, Associate Professor, School of Environment and Natural Resources, College of Food, Agriculture and Environmental Sciences

2007 – 2013, Assistant Professor, School of Environment and Natural Resources, College of Food, Agriculture and Environmental Sciences

EDUCATION

University of Minnesota

2004-2007, Ph.D., Natural Resources Science and Management

Dissertation: *Value orientations and the practice of conservation: Applications in fisheries management and agriculture* (Advisor: David C. Fulton, U.S. Geological Survey)

Utah State University

2002-2004, M.S., Human Dimensions of Ecosystem Science and Management

Thesis: *Utah residents' attitudes toward wolves: 1994-2003* (Advisor: Robert H. Schmidt)

Western Michigan University

1993-1995, B.A., Art (Magna Cum Laude)

RESEARCH INTERESTS

I am an interdisciplinary scientist with broad training in social psychology, ecology, and natural resources policy and management. My research employs theory from psychology (primarily cognitive and social psych) to explain human judgments, decisions and behaviors related to the conservation and management of fish and wildlife resources. My work is organized around three complementary focal areas, which, broadly speaking, can be characterized as: (a) understanding factors impacting tolerance for wildlife and support for their conservation, and (b) explaining conservation-related judgments and behaviors over space and time, and (c) using social science data to inform conservation policy.
