AWARDS

- 2014 ProQuest Distinguished Dissertation Award**
This award is a nomination based, university-wide award, given by the University of Michigan Graduate School to recognize exceptional and unusually interesting work produced by doctoral students. Final selection committee is made up of members of the Michigan Society of Fellows and awardees are given \$1,000 honorarium.
- 2012 Environmental Justice Award for Outstanding Scholarship**
This award is given by the University of Michigan’s School of Natural Resources and Environment to graduate students studying in the field of Environmental Justice who have done outstanding work on their dissertations, in the class room, on research projects, practical, theses, or papers.

- 2011 National Institute of Health supported Training Program in Advanced Spatial Analysis**
Center for Spatially Integrated Social Science's at the University of California, Santa Barbara training program designed to train participants in multilevel modeling, particularly in a spatial and demographic context
- 2009 Google Earth KML Research Global Competition Winner**
Google's KML research contest was open to students and professionals in 20 countries. The contest rewards the best visualizations of scientific research in Google Earth using KML. Entries were judged by a panel of experts based on overall functionality in Google Earth, visual appeal, ease of use and understanding and educational value.
- 2009 School of Natural Resource Justin W. Leonard Award**
This award is given by the University of Michigan's School of Natural Resources and Environment for a graduate student with superior academic credentials who is judged to have the greatest promise for leadership in the wise use of natural resources through the integration of natural and social sciences.
