NEW Ecosystem Restoration specialization

The university has recently approved changes to the Ecosystem Restoration specialization within the Environmental Science major. Check out the curriculum guide [here](#).

The newly designed specialization includes a new core and ensures that students have a breadth of knowledge across terrestrial and aquatic/wetland restoration, and soil rehabilitation. The new curriculum provides the opportunity to develop skills in monitoring/experimental design and species identification and recording – all key skills employers look for in graduates.

The Society for Ecological Restoration recently implemented a [certification program](#) and the newly designed specialization meets the curricular requirements for the certification.

Are you already a declared Ecosystem Restoration specialization? You can continue to follow the curriculum that you started under or you can switch to the new curriculum. If you decide you want to switch to the new, please email senr@osu.edu to let us know.

If you are not currently in the specialization but would like to declare, please schedule an appointment with your academic advisor by calling 614.292.2265.

ENVENG/FABENG/ENR 5310 – Ecological Engineering & Science – SP18 Offering

If you've looked at the Spring 2018 schedule of classes you may have noticed an offering of ENR 5310 – Ecological Engineering & Science. We've recently created an ENR section of the cross-listed course. It will be offered this spring by Dr. Elizabeth Toman from ENR and Dr. Jay Martin from FABE. The course will be offered on Mondays & Wednesdays from 9:10-11:00 in Kottman 104.

Not Too Late to Sign Up for Environmental Film Series!

Prof. David Hanselmann is once again offering the popular Environmental Film Series course for ENR 4193 credit this fall (second session). Pre-signed Course Enrollment Permission forms for the course can be found at the 210 Kottman front desk. The film series begins on Oct. 16, and the **last day to register is Oct. 13**.

View the flyer for the film series [HERE](#). The course syllabus can be found [HERE](#).

Dates & Deadlines

Fall Break – no classes, offices open
Last day to [drop a course](#), with a 'W'

Deadline

Thurs, 10/12 – Fri, 10/13
Friday, 10/27

Check the [University Registrar's website](#) for a more detailed list of important academic dates and deadlines.

Upcoming Events

LEED Green Associate Training – Sunday, Oct. 1, 2017 – 239 Journalism Bldg

LEED (Leadership in Energy and Environmental Design) is simply a sustainability scorecard. The LEED Green Associate is the only professional designation to show employers and clients you have certified knowledge in the field. This course is designed to help students pass the LEED Associate exam. Read more about the course [HERE](#). Register [HERE](#).

Education Abroad Info Sessions:

Australia

Monday, 9/25, 5 pm - 6 pm ML 129

Thursday, 10/26, 4:30 pm – 5:30 pm HC 250

Wednesday, 11/15, 5:30 pm – 6:30 pm KH 102

Tanzania

Wednesday, 9/20, 5:30 pm – 6:30 pm KN 195

Thursday, 10/5, 4 pm - 5 pm KH 116

Monday, 10/16, 5 pm - 6 pm ML 129

New Zealand

Monday, 10/9, 5-6 pm ML 129

Wednesday, 10/25, 5:30-6:30 pm KH 102

Monday, 11/13, 5 – 6 pm MQ 162

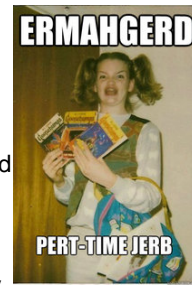

Become an SENR Ambassador!

The Ambassadors program was developed to connect prospective SENR students to current students in their major, help with the college search process, personalize campus visits, represent the school at recruitment events, and welcome new students into our community. As of right now, the program is in need of students majoring in **Environmental Science** and **Forestry, Fisheries, Wildlife**. If you or someone you know fits these majors, please [APPLY HERE!](#)

Curious? Read more about the Ambassador program [HERE](#). Questions? Contact Rachel McDevitt (McDevitt.54@osu.edu).

Student Job Opportunity

SENR is looking to hire two students to help with monthly Environmental Professionals Network Breakfasts. Tasks performed by these students would include:

1. Setup and take down of tables, chairs and other program materials at monthly breakfasts (must be physically able to lift and move up to 25lbs.)
2. Interact with environmental professionals in the Central Ohio community once per month during the Fall Semester.

Applicants must be available on **Monday evenings** for a flexible one-hour setup period and **Tuesday mornings from 6:30am to 10:30am** for a four-hour registration and tear down period for the following Monday/Tuesday event dates (these are mandatory dates for the position)

- October 9 and 10
- November 6 and 7
- December 4 and 5

This position will be for 5 hours per month at \$10 per hour. Position ends December 6th, 2017 with continued employment dependent on student's availability Spring Semester.

To apply please send your resume and Fall Semester 2017 class schedule to Molly Hardesty at hardesty.112@osu.edu

Don't hesitate to [contact us](#) if you have questions.
