

TNC AIS Outreach

2015 OH, MI, ON AIS Harmonization agreement

- Passage of MI and ON AIS legislation
- MI and ON Risk Assessment Process specified
- TNC approaches both legislature and ODNR to request similar approach in Ohio

Recent

- ODNR creation of injurious species definition & injurious species list
- ODNR agrees to develop a risk assessment process

Injurious Species Definition

ODNR has proposed a definition (before JCARR in the fall) that under OAC 1501:31-1-02 Definition of Terms “Injurious aquatic invasive species” means a mollusk, crustacean, fish, reptile, or amphibian not indigenous to the state that the Chief has determined can survive or reproduce within the state and is likely to cause environmental or economic harm or harm to human health.
