

MENR Seminar Advising Sheet — ENR 7981

Student's Name _____

Students are required to take 2 semesters of the MENR seminar course (ENR 7981). The course allows students to:

- Network within the environmental professional practice community
- Develop a breadth of knowledge in the field
- Learn about current issues in the field
- Gain professional growth

Term of Enrollment _____

First term

Second term

Students are required to obtain a minimum of 10 hours with students typically completing 15 hours over a minimum of 5 events. Events must be approved by the MENR Director to count toward the needed contact hours. Following each event a one page reflection should be submitted to the Graduate Program Coordinator so it can be marked as complete.

Please list planned events below.

Attach additional information to facilitate the MENR Director's ability to review and approve the plan.
