Career Tips and Advice

EVERYBODY GETS AN INTERNSHIP!

Wouldn't it be awesome if Oprah handed out internships like she did cars on her favorite things show?

It may feel overwhelming going through the process of searching and applying for internships but don't give up. Perseverance is key. There is an internship out there with your name on it.

Make sure your resume is up to date and have it checked by someone in our Career Development office.

Upload your resume to HireaBuckeye. Employers are using it everyday. Just yesterday, an employer asked how they could use it to search for interns so while you are looking for them, they are looking for you as well using the system.

Network. Attend the [Environmental Professionals Network](#) events. Come to our [workshops](#). Go to conferences. Get involved in [student organizations](#). There are lots of ways to meet people and potential employers. You will never know when an opportunity might appear. Your number one job search strategy forever...NETWORKING.

INTERNSHIP CREDIT

Once you have secured an internship position, you may want to use that experience to receive academic credit. [Read more about that HERE](#). To register for credit, come to our **Ice Cream and Internships** the week of April 4th, our special registration week, and get a treat while you are here!

Grow Your Network and Knowledge

Graduating Seniors and Graduate Students

Time to transition your resume from student to professional. Learn how to generate a winning document to get you noticed, how to write a personal branding statement, professional summary and more. [Details HERE](#).
