Spring Break Job Shadow program

Hot Jobs

Graduating Seniors - workshops not to miss!

Grow Your Network and Knowledge

You're Hired!

Those beautiful words whispered to a graduate are so sweet. And yes, you'll have to wake up early and go to work, no more sleeping in or "no classes on Fridays" (which by the way, is as good as hitting the lottery?!).

We hosted a resume workshop for graduating seniors and graduate students last week. We covered how your resume transitions from a student resume to a professional document. We covered what a "Personal Branding Statement" is and also how to write a "Professional Summary". We talked about using metrics, illustrating fit to the job, and the important part of real estate that is the top half of your resume.

If you missed it, be sure you check in with one of us in the Career Development office to have your resume reviewed. Too often, we will chat with alumni well after graduation who

are puzzled about why they aren't getting a response to their applications. 9 times out of 10, their resume still looks like they are a student and isn't up to par. First impressions make a huge difference.

Join us this Thursday, March 3rd, for [Peer and Career Coach resume review](#). Kind of like speed dating but not. We will be reviewing each others resumes and giving quick feedback. The more that come, the better the event, so grab a friend, your resume and attend!

On March 8th, you won't want to miss the [Life After Graduation](#) panel discussion with our young alumni group. This event has received great reviews. You'll hear from our ENR alumni about how they have managed everything from the job search, making rent, navigating job loss, personal struggles, finances, and more. It's a fabulous conversation. Pizza dinner served.

All of our Spring Career Development events can be found [HERE](#).

INTERNSHIP CREDIT

It's like Christmas in the career office. Just about everyday, I'm getting emails or students stopping by to tell me about the awesome internships they will be headed out to this summer. If you want to receive academic credit for your experience, [Read more about that HERE](#). To register for credit, come to our ***Ice Cream and Internships*** the week of April 4th, our special registration week, and get a treat while you are here!

OB SHADOW OVER SPRING BREAK

I made that font a little larger so you wouldn't miss it! If you don't have plans for Spring Break well, now you do! Sign up to go out on a job shadow experience.

New experiences are still being added but you can choose from companies like *White Castle, Ashland Inc, MAD Scientist and Associates, the Ohio Department of Natural Resources, NiSource and The Nature Conservancy.*

If you'd like to participate, email us at : senr@osu.edu with the subject header JOB SHADOW. We will notify you with more details on dates and times.

Become LEED Accredited!

LEED Green Associate (GA) Training
When: April 2 2016 – 1:00PM to 5:00 PM
Where: Ohio State – Hitchcock Hall – Room 031

Registration: [online](#)

Interested in getting involved in the Green Building Industry? Opportunities are plentiful in the field of sustainable design and LEED is at its forefront.

LEED (Leadership in Energy and Environmental Design) is simply a green-rating point system, or a scorecard. The more energy efficient and sustainable a building is, the more points it will earn. To date, this course and its materials have proven to be instrumental in helping over 5000 students pass their respective exam at a 100% pass rate. This course is offered at a quarter of the price and time as the competition and is geared at allowing students to graduate with letters after their name!

Just as Buildings can be LEED certified, people in the sustainable construction industry can become LEED Professionals. The LEED Green Associate (GA) credential is the only entry level sustainability designation and shows employers and clients that you have certified knowledge in the green building industry. A new LEED rating system (v4) was introduced last month and this training course is one of the few that has been updated to teach the current rating system. This course meets the exam's eligibility requirements and the USGBC charges a \$100 (reduced for students) fee for the actual exam which can be taken at any time at your nearest Prometric center.

Cost: \$300 (\$200 for full time students)

To register for the class please visit: <http://leadinggreen.ca/columbus>
