

**SCHOOL OF ENVIRONMENT AND NATURAL RESOURCES
CAREER SERVICES NEWSLETTER
SPECIAL EDITION**

JANUARY 13, 2015

Tomorrow - RESUME WORKSHOP

The Career Expo is next week, Thursday, January 22nd, but don't panic if you still aren't ready.

Tomorrow evening at 4pm in Kottman Hall 333 I will be presenting a [resume workshop](#). This is perfect for those internship seekers to learn how to draft and sharpen up your document.

Already have a resume completed? Come listen in and afterwards, I will be doing one on one resume reviews. Those resume reviews will continue during our Express Hours this Friday from 9:30 – 4pm in KH 210 for career services so you have plenty of time to make corrections before next week.

Career Tips and Advice for the Career Expo

What should I wear?

What should I bring?

What if....???

I have the answers to those questions and more found [RIGHT HERE](#).

I'm also available for a quick consultation if you want to ask me about outfit appropriateness or other last minute questions. You should also consult our past Career Services Newsletters to read the other Countdown to Career Expo articles written just for you.

You will find the link to those newsletters [HERE](#) in the right sidebar.

p.s. If the weather outside is icy and snow covered the day of the event, I promise you, no one will mind that you have on snow boots with your dress outfit. However, note that as you arrive, there is a coat rack area where you can stow your gear, including a place to change your shoes once you arrive if you'd like.

p.p.s You will find me, Trish, your career counselor, just inside the doors of the auditorium all day during the event. It's my job that day to give you pep talks, encouragement, offer you a good opening line to a particular employer or point you in the right direction of who I think you should meet (which I will tell you is everyone in the room). Come and find me if you need a breather. I'm really good at helping to alleviate your anxiety and I'm a great cheerleader. You can do it!

Grow Your Network and Knowledge

Upcoming opportunities to network and learn

SUSTAINABILITY AND ENVIRONMENTAL CAREER EXPO

Thursday, January 22, 2014 - 10:00 AM - 3:00 PM

Location: Ag Admin Auditorium

This career event is open to all university students. Come explore what opportunities are available for both internships and full time employment. Find the full list of registered companies that is being updated daily [HERE](#).

BOOT CAMP, January 27th, - sponsored by the School of Environment and Natural Resources Alumni Society. Students must [pre-register](#) to attend.

BOOT CAMP

Tuesday, January 27, 2015
5:00 – 8:00 p.m.

Nationwide and Ohio Farm Bureau 4-H Center

The ENR Alumni Society and the Coalition of Student Organizations invite current undergraduate and graduate students, as well as recent graduates to connect with ENR Alumni working in the field of natural resources.

You will find the full list of university career events [HERE](#). Next one coming up is the Summer Internship and Opportunity Fair sponsored by Arts and Sciences on January 28th.

HOT JOBS!

From the office of Andrew Phillips: The **Ohio EPA internship postings for 2015 are now available**. Students will be able to apply for the positions from now until February 13th.

Each year Ohio EPA hires nearly 70 college interns for summer work, with over 55 receiving positions within the Division of Surface Water. Students receiving internships are able to apply classroom knowledge in a real world setting and develop skills suitable for careers in natural resources, environmental stewardship, academia, biology, chemistry, ecology, water resources, fisheries, wildlife, botany, zoology, and engineering. Specific activities that interns may be involved include water quality sampling, wetland research, electrofishing surveys, macroinvertebrate sampling, stormwater inspections and water quality modeling.

The 24 postings may be differentiated from one another by the PN located at the top of each position description. The PNs listed below are for the positions that we often receive specific questions from students.

1. Fish Electrofishing PN –20047867
2. Bug PN – 20047882
3. Modeling PN –20047860
4. Wetlands PN –20047885
5. Environmental Services Lab - 20044568

Various other types of water quality and permitting internships are available through our district offices. Several Division of Air Pollution Control Internships are also available.

Feel free to direct students to me if they have any questions about the internships or the application process.

Sincerely,
Andrew Phillips
Environmental Specialist 2

Ohio EPA, Ecological Assessment Section
4675 Homer Ohio Lane
Groveport, Ohio 43125
614-836-8773
614-836-8795 (fax)
Andrew.phillips@epa.ohio.gov

Interviews start tomorrow and additional interviews may be arranged for qualified candidates interested in interning this semester or into the summer with the **City of Columbus Public Health**.

These internships have been created exclusively for our ENR students. They are seeking students to assist with the development of programming for its Environmental Protection and Sustainability section.

Graduate students are preferred; however exceptional undergraduate students will also be considered

Position are unpaid, but approved for class credit through The Ohio State University School of Environment and Natural Resources. Potential projects will include:

- Creation of environmental education modules for department staff
- Development of an employee ride share pilot
- Establishment of a pharmaceutical turn in program
- Creation of a city lawn mower exchange program
- Presentation of climate change information to community organizations
- Assistance with a community air quality campaign

Responsibilities will include 1) assisting in development of program goals, objectives, and initiative timelines, 2) completion of project tasks, and 3) development of project recommendations.

Students may be asked to work independently or as part of a team. Selected students should have skills and abilities in some or all of the following areas: research and information gathering, writing, public speaking, materials development and project planning. Experience with Microsoft Office software (Excel, Word, Presentations) is required.

Interested students should submit a resume and letter of interest to Richard Hicks, Program Manager, Environmental Protection and Sustainability at rickh@Columbus.gov, subject line: STUDENT INTERN.

Winous Point Marsh Conservancy Internships for Summer and Fall 2015 are now posted on HireaBuckeye and can also be found on their website [HERE](#).
