Research Experience for Undergraduates (REU) position is available at The Ohio State University

The position is for summer 2020 in the School of Environment and Natural Resources to study whether behavioral divergence among populations of an African cichlid is functionally significant and confers a fitness advantage across extremes of dissolved oxygen and turbidity.

- Work with Dr. Suzanne Gray and Dr. Lauren Pintor on an NSF-funded project that investigates “Key drivers and functional significance of sensory and behavioral trait divergence across multiple environmental stressors in an African cichlid.”
- Be part of a team in Columbus conducting several behavioral experiments in the lab.
- Develop an independent project.

The ideal candidate should be interested in the fields of aquatic ecology, conservation, and behavior, detail-oriented, observant, and hard-working. The student will start on June 1, 2020. We will provide a stipend of $400/week for ten weeks and $500 for travel to Columbus, Ohio.

Apply by Friday, February 20, 2020

Applicants must submit:
- Curriculum Vitae
- One-page statement describing your interest in the REU position, academic goals, and previous research experience
- An unofficial copy of transcripts
- Contact info for 2 academic references
- Eligible students must be enrolled as undergraduates and be U.S. citizens or permanent residents

Please send applications to:
Dr. Lauren M. Pintor
pintor.6@osu.edu
Questions can be addressed to either Dr. Lauren Pintor or Dr. Suzanne Gray
