Join us online this winter for a Thursday morning series about soil health. Starting on January 14, we will dig below the surface to investigate new developments in soil health and soil management. All sessions are 8:00-8:30 a.m. and feature a variety of speakers from Ohio and beyond. The series is free, but participants must register at go.osu.edu/soilhealth2021.

1/14  Does Soil Health Pay? Soil Health and Your Farm
Farmer Panel: Nathan Brown, Matt Falb, Les Seiler

1/21  What Can Soil Health Tests Tell You?
Steve Culman, Ohio State School of Environment and Natural Resources

1/28  Can Improving Soil Health Improve Yield?
Jordon Wade, University of Illinois at Urbana-Champaign

2/4   Cover Crop Management for Soil Health
Hans Kok, Indiana Conservation Cropping Systems

2/11  No session – Corn College
