ENR 7430: SUSTAINABILITY PSYCHOLOGY

Spring 2022 | 3 Credits | W 11:10-1:35 | 333C KH

* Build your expertise in developing and applying psychological theories to promote “sustainable” behavior

* Learn how to critique and advocate for behavioral intervention programs intended to promote sustainability

* This class has projects with field partners! Learn how theory can inform practice and vice versa to get the most from partnerships

* This course is highly interactive. Content will be delivered via discussions, student presentations, and small group activities

Pre-req: Graduate standing plus any ONE of the following: any undergraduate- or graduate-level psychology course, ENR 3400, ENR 5400, OR by instructor approval.
Instructor: Dr. Nicole Sintov
