Entering as a transfer student:

Students joining the major as a new transfer student or transferring from another OSU major will need to modify the curriculum roadmap to meet their needs. Courses to focus on during the first year in the major include:

- 1st Semester: **ENR 2100, MATH 1151/1156, and CHEM 1210**  
 2nd Semester: **ENR 3300, CHEM 1220, and BIOLOGY 1113**

Note on courses in the major:

Courses in year 3 and 4 should not be taken earlier unless you have discussed with your faculty mentor. Your coursework in year 1 and 2 are foundational and will prepare you for the major courses.
