

Star Student Supporter

Mazeika Sullivan

Education: BA in Anthropology and Native American Studies, Dartmouth College; MS in Biology and PhD in Natural Resources, University of Vermont; Postdoctoral Fellow, University of Idaho

Hometown: I've lived in quite a few places, but I identify most with East Johnson, Vermont and Ponce, Puerto Rico

Pet Peeve: Litter and bad translations from Spanish to English

Most Interesting Place You've Traveled to: I've been fortunate to travel a lot, so this is a hard one, but I'd have to say Botswana

Best class: It's a toss up between Physiological Ecology and Spanish Literature of the Middle Ages

Favorite Food: Paella

Favorite College Memory: Paddling adventures on the Connecticut River

Duties within CFAES: I'm an Assistant Professor in the School of Environment and Natural Resources. My area of research is the ecology and conservation of aquatic and riparian ecosystems. Currently, I teach Stream Ecology and Taxonomy and Behavior of Aquatic Invertebrates, as well as advise graduate and undergraduate students. I also am the faculty advisor for the Buckeye Unit of the American Fisheries Society.

Advice to Students: Maintain balance in your life. Also, there are things you can control and others you can't – put your energy into those you can do something about.

The Star Student Supporter is chosen at each CFAES Student Council meeting to recognize the work and accomplishments of students.
