Seminary Hill Farm Internship

Kayla Long, EEDS

TEN ACRES OF DELAWARE, OH

Seminary Hill Farm occupies 10 acres of Methodist Theological School of Ohio's 80-acre campus. The farm's mission is to:

- teach small-scale farming
- produce good food for all in pursuit of a just, sustainable, and generative world

Lettuce and strawberries galore!

The farm operates on a 20-week season basis, starting at the beginning of June and ending at the end of October of each year. Some crops are partial to a specific month, while some can grow all season!

The kale field basking in the morning sun.

COMMUNITY SUPPORTED AGRICULTURE

Our end-of-season ceremony with my fellow interns.

Ordering through the CSA allows residents of both Delaware and German Village to have access to clean, healthy produce while supporting the farm. CSA shareholders contribute to programs such as:

- Community Outreach
- Integration with the MTSO campus
- Farm internships

Fresh lettuce heads being prepared for packing.

Our hoop-houses are home to a diverse biome.

Seminary Hill has partnerships with several organizations around Columbus, offering free food and education around small-scale farming and preparation of fresh produce. Some of these organizations include:

- Food Leads
- Franklinton Farms
- Linden Farmers Market
- HEAL

The greenhouse in it's prime.

MY EXPERIENCE

Truck full of herbs.

My internship at Seminary Hill Farm brought me friendships, knowledge, connections, and a passion for farming. Thought my time here, I discovered my calling is to provide clean food to underserved communities.

Thistle, the barn cat, eating a thistle.

ACKNOWLEDGEMENTS

I'd like to thank my fellow interns, as well as my supervisors Taylor Green and Laura Bergman for providing me with a Summer I will never forget.
