COURSE OVERVIEW

Instructors

Dr. Nicholas Basta (basta.4@osu.edu)
Dr. Brian Slater (slater.39@osu.edu)

Teaching Associate: Manfred Mayer (mayer.785@buckeyemail.osu.edu)

Prerequisites

None

Course description

A comprehensive study focused on assessment and restoration of urban soils to provide essential ecosystem services. Urban soil laboratory provides hands-on experience with soil assessment and restoration.

The course focuses on assessment and restoration of urban soils to provide essential ecosystem services. During the course, practical soil assessment at a local field site includes soil sampling and in-field soil health measurements, supplemented by laboratory data collection. Soil health assessment targets environmental contaminants, and physical, chemical, and biological soil properties. Students develop a comprehensive consultancy report...
detailing soil health assessments and pragmatic restoration and/or remediation recommendations for the site.

Course learning outcomes

By the end of this course, students should successfully be able to:

- conduct field and laboratory soil assessments of an urban site
- conduct field soil investigations
- collect and preserve field soil / water samples based on statistical spatial sampling
- request soil analyses from external sources
- interpret analytical results, and
- summarize findings and recommendations in a professional report.

HOW THIS COURSE WORKS

Mode of delivery: This course consists of in person presentation sessions and field sampling and measurement sessions.

Credit hours and work expectations: This is a 3-credit-hour course. According to Ohio State policy (go.osu.edu/credithours), students should expect around 3 hours per week of time spent on direct instruction (instructor content and Carmen activities, for example) in addition to 6 hours of homework (reading and assignment preparation, for example) to receive a grade of (C) average.

Attendance and participation requirements: The following is a summary of students’ expected participation:

- Participating in lecture and laboratory.
  - Attendance for lectures is mandatory.
  - Field visits to the Waterman Farm will be held during September on specified Tuesday and Thursday afternoons (12:45-3:45 PM).
    - Missing 2 of the field visits will result in a 20% penalty to your individual grade for the Soil Physical Properties and Geomorphology lab
  - Attendance for laboratory sessions is mandatory
    - Group members will anonymously evaluate each other’s contributions during the semester; this will factor into the attendance/participation portion of your grade.
COURSE MATERIALS AND TECHNOLOGIES

Textbooks

- Class notes and other supplementary materials will be available on the class Carmen page.

Recommended/optional

(available as free PDF on Carmen)

Other fees or requirements

- None

Course technology

Technology support

For help with your password, university email, Carmen, or any other technology issues, questions, or requests, contact the Ohio State IT Service Desk. Standard support hours are available at ocio.osu.edu/help/hours, and support for urgent issues is available 24/7.

- Self-Service and Chat support: ocio.osu.edu/help
- Phone: 614-688-4357(HELP)
- Email: servicedesk@osu.edu
- TDD: 614-688-8743

Technology skills needed for this course
• Basic computer and web-browsing skills
• Navigating Carmen (go.osu.edu/canvasstudent)
• CarmenZoom virtual meetings (go.osu.edu/zoom-meetings)
• Recording a slide presentation with audio narration (go.osu.edu/video-assignment-guide)
• Recording, editing, and uploading video (go.osu.edu/video-assignment-guide)

Required equipment

• Computer: current Mac (MacOs) or PC (Windows 10) with high-speed internet connection
• Webcam: built-in or external webcam, fully installed and tested
• Microphone: built-in laptop or tablet mic or external microphone
• Other: a mobile device (smartphone or tablet) to use for BuckeyePass authentication

Required software

• Microsoft Office 365: All Ohio State students are now eligible for free Microsoft Office 365. Full instructions for downloading and installation can be found at go.osu.edu/office365help.

Carmen access

You will need to use BuckeyePass (buckeyepass.osu.edu) multi-factor authentication to access your courses in Carmen. To ensure that you are able to connect to Carmen at all times, it is recommended that you take the following steps:

• Register multiple devices in case something happens to your primary device. Visit the BuckeyePass - Adding a Device help article for step-by-step instructions (go.osu.edu/add-device).
• Request passcodes to keep as a backup authentication option. When you see the Duo login screen on your computer, click Enter a Passcode and then click the Text me new codes button that appears. This will text you ten passcodes good for 365 days that can each be used once.
• Download the Duo Mobile application (go.osu.edu/install-duo) to all of your registered devices for the ability to generate one-time codes in the event that you lose cell, data, or Wi-Fi service

If none of these options will meet the needs of your situation, you can contact the IT Service Desk at 614-688-4357(HELP) and IT support staff will work out a solution with you.

Descriptions of major course assignments

Reports

The goal is to develop a professional quality consultancy report detailing soil health assessments and soil restoration recommendations for the field site. Group reports will be done for each report except the executive summary and final report. Each individual will compose an executive summary to be used with the final report. A format template along with example reports can be found on the class Carmen page. The format template is for the final report, so it is not expected that all of these sections be completed for the Introductory Report and subsequent reports. More detailed instructions for each report will be provided on Carmen.

1. Introductory Background Report
a. You are tasked with writing a report that discusses the background information about the assigned field site (Student Farm at Waterman Agricultural and Natural Resources Laboratory)
   i.  • Title Page
   ii.  Background
   iii.  • Site Description and Soil Sampling Design (under Technical Approach)
   iv.  • Literature Cited (up to this point)

2. Soil Physical Properties and Geomorphology Report
   a. Soil Physical Properties (related to soil water and air) will be discussed
      i.  Technical Approach
      ii.  Soil Processing and Preparation
      iii.  Methods
      iv.  Results and Discussion (Create tables and/or figures with all information you have thus far)
      v.  Literature Cited (up to this point)

3. Soil Chemical and Biological Properties Report
   i.  Technical Approach
   ii.  Soil Processing and Preparation
   iii.  Methods for Chemical and Biological Properties
   iv.  Results and Discussion (Create tables and/or figures with all information you have thus far)
   v.  Literature Cited (up to this point)

4. Ecosystem Services Report
   i.  Technical Approach for each ecosystem service
   ii.  Data Processing and summary
   iii.  Results and Discussion (Create tables and/or figures with all information you have thus far)

5. Comprehensive Final Report
   i.  Executive Summary
ii. Group reports

**Academic integrity and collaboration:**

Written assignments: Your written assignments, including discussion posts, should be your own original work. In formal assignments, you should follow the Soil Science Society of America style to cite the ideas and words of your research sources. A copy of the Tri-Societies Style Manual will be posted on Carmen. You are encouraged to ask a trusted person to proofread your assignments before you turn them in, but no one else should revise or rewrite your work.

Reusing past work: In general, you are prohibited in university courses from turning in work from a past class to your current class, even if you modify it. If you want to build on past research or revisit a topic you've explored in previous courses, please discuss the situation with the instructors.

Falsifying research or results: All research you will conduct in this course is intended to be a learning experience; you should never feel tempted to make your results or your library research look more successful than it was.

Collaboration and informal peer-review: The course includes many opportunities for formal collaboration with your classmates. While study groups and peer-review of major written projects is encouraged, remember that comparing answers on an assignment is not permitted. If you're unsure about a particular situation, please ask ahead of time.

Group projects: This course includes group projects, which can be stressful for students when it comes to dividing work, taking credit, and receiving grades and feedback. I have attempted to make the guidelines for group work as clear as possible for each activity and assignment, but please let me know if you have any questions.

**Late assignments**

In general, late submissions will not be accepted. Exceptions due to situations with serious, extenuating circumstances, such as documented medical emergencies, may be granted after discussion with the instructors. Any assignments submitted after their due date will be graded as usual then incur a penalty. Within one week of the due date, students will receive a 10% grade reduction for the assignment. Assignments turned in more than one week after the due
date will incur a 20% reduction. Students should submit late work to the assignment’s drop-box on Carmen and send an email notifying the instructors that the assignment has been submitted. Please refer to the syllabus and Carmen for due dates.

**Grading scale**

93–100: A  
90–92.9: A-  
87–89.9: B+  
83–86.9: B  
80–82.9: B-  
77–79.9: C+  
73–76.9: C  
70–72.9: C-  
67–69.9: D+  
60–66.9: D  
Below 60: E

**Instructor feedback and response time**

I am providing the following list to give you an idea of my intended availability throughout the course. (Remember that you can call 614-688-4357(HELP) at any time if you have a technical problem.)

- **Grading and feedback:** For large weekly assignments, you can generally expect feedback within 7 days.

- **Email:** I will reply to emails within 24 hours on days when class is in session at the university.

- **Discussion board:** I will check and reply to messages in the discussion boards every 24 hours on school days.

**OTHER COURSE POLICIES**

**Discussion and communication guidelines**

The following are my expectations for how we should communicate as a class. Above all, please remember to be respectful and thoughtful.
• **Writing style**: Consultancy reports will model real-world professional scientific work. You should remember to write using good grammar, spelling, and punctuation.

• **Tone and civility**: Let’s maintain a supportive learning community where everyone feels safe and where people can disagree amicably. Remember that sarcasm doesn’t always come across online.

• **Citing your sources**: When we have academic discussions, please cite your sources to back up what you say. For the textbook or other course materials, list at least the title and page numbers. For online sources, include a link.

• **Backing up your work**: Consider composing your academic posts in a word processor, where you can save your work, and then copying into the Carmen discussion.

---

**Academic integrity policy**

See **Descriptions of major course assignments**, above, for specific guidelines about collaboration and academic integrity in the context of this online class.

**Ohio State’s academic integrity policy**

Academic integrity is essential to maintaining an environment that fosters excellence in teaching, research, and other educational and scholarly activities. Thus, The Ohio State University and the Committee on Academic Misconduct (COAM) expect that all students have read and understand the university’s **Code of Student Conduct** ([studentconduct.osu.edu](http://studentconduct.osu.edu)), and that all students will complete all academic and scholarly assignments with fairness and honesty. Students must recognize that failure to follow the rules and guidelines established in the university’s **Code of Student Conduct** and this syllabus may constitute “Academic Misconduct.”

The Ohio State University’s **Code of Student Conduct** (Section 3335-23-04) defines academic misconduct as: “Any activity that tends to compromise the academic integrity of the university or subvert the educational process.” Examples of academic misconduct include (but are not limited to) plagiarism, collusion (unauthorized collaboration), copying the work of another student, and possession of unauthorized materials during an examination. Ignorance of the university’s **Code of Student Conduct** is never considered an excuse for academic misconduct, so I recommend that you review the **Code of Student Conduct** and, specifically, the sections dealing with academic misconduct.

**If I suspect that a student has committed academic misconduct in this course, I am obligated by university rules to report my suspicions to the Committee on Academic Misconduct.** If COAM determines that you have violated the university’s **Code of Student Conduct** (i.e., committed academic misconduct), the sanctions for the misconduct could include a failing grade in this course and suspension or dismissal from the university.

If you have any questions about the above policy or what constitutes academic misconduct in this course, please contact me.
Other sources of information on academic misconduct (integrity) to which you can refer include:

- Committee on Academic Misconduct web page (go.osu.edu/coam)
- Ten Suggestions for Preserving Academic Integrity (go.osu.edu/ten-suggestions)
- Eight Cardinal Rules of Academic Integrity (go.osu.edu/cardinal-rules)

Copyright for instructional materials

The materials used in connection with this course may be subject to copyright protection and are only for the use of students officially enrolled in the course for the educational purposes associated with the course. Copyright law must be considered before copying, retaining, or disseminating materials outside of the course.

Statement on Title IX

All students and employees at Ohio State have the right to work and learn in an environment free from harassment and discrimination based on sex or gender, and the university can arrange interim measures, provide support resources, and explain investigation options, including referral to confidential resources.

If you or someone you know has been harassed or discriminated against based on your sex or gender, including sexual harassment, sexual assault, relationship violence, stalking, or sexual exploitation, you may find information about your rights and options at titleix.osu.edu or by contacting the Ohio State Title IX Coordinator at titleix@osu.edu. Title IX is part of the Office of Institutional Equity (OIE) at Ohio State, which responds to all bias-motivated incidents of harassment and discrimination, such as race, religion, national origin and disability. For more information on OIE, visit equity.osu.edu or email equity@osu.edu.

Commitment to a diverse and inclusive learning environment

The Ohio State University affirms the importance and value of diversity in the student body. Our programs and curricula reflect our multicultural society and global economy and seek to provide opportunities for students to learn more about persons who are different from them. We are committed to maintaining a community that recognizes and values the inherent worth and dignity of every person; fosters sensitivity, understanding, and mutual respect among each member of our community; and encourages each individual to strive to reach his or her own potential. Discrimination against any individual based upon protected status, which is defined
as age, color, disability, gender identity or expression, national origin, race, religion, sex, sexual orientation, or veteran status, is prohibited.

Your mental health

As a student you may experience a range of issues that can cause barriers to learning, such as strained relationships, increased anxiety, alcohol/drug problems, feeling down, difficulty concentrating and/or lack of motivation. These mental health concerns or stressful events may lead to diminished academic performance or reduce a student's ability to participate in daily activities. No matter where you are engaged in distance learning, The Ohio State University’s Student Life Counseling and Consultation Service (CCS) is here to support you. If you find yourself feeling isolated, anxious or overwhelmed, on-demand resources are available at go.osu.edu/ccsondemand. You can reach an on-call counselor when CCS is closed at 614-292-5766, and 24-hour emergency help is also available through the 24/7 National Prevention Hotline at 1-800-273-TALK or at suicidepreventionlifeline.org. The Ohio State Wellness app is also a great resource available at go.osu.edu/wellnessapp.

ACCESSIBILITY ACCOMMODATIONS FOR STUDENTS WITH DISABILITIES

Requesting accommodations

The university strives to make all learning experiences as accessible as possible. If you anticipate or experience academic barriers based on your disability including mental health, chronic or temporary medical conditions, please let me know immediately so that we can privately discuss options. To establish reasonable accommodations, I may request that you register with Student Life Disability Services. After registration, make arrangements with me as soon as possible to discuss your accommodations so that they may be implemented in a timely fashion. SLDS contact information: slds@osu.edu; 614-292-3307; 098 Baker Hall, 113 W. 12th Avenue.

Accessibility of course technology

This course requires use of CarmenCanvas (Ohio State's learning management system) and other online communication and multimedia tools. If you need additional services to use these technologies, please request accommodations with your instructor.

- Canvas accessibility (go.osu.edu/canvas-accessibility)
- Streaming audio and video
- CarmenZoom accessibility (go.osu.edu/zoom-accessibility)
- Collaborative course tools

**COURSE SCHEDULE**

Refer to the Carmen course for up-to-date assignment due dates. Field lab, analytical lab and discussion sessions have two sections a and b; students will be assigned to lab groups.
