Sociology of Agriculture and Food Systems
Autumn 2022 (full term)
3 credit hours

Synchronous Meeting Time: Tuesdays 12:40 pm – 3:20 pm
Kottman Hall Room 245

COURSE OVERVIEW

Instructor

Instructor: Dr. Shoshanah Inwood

Email address and (preferred contact method): inwood.2@osu.edu

Office hours: Thursday 10:00am -12:00 pm

Course description

A review of theory and research associated with the sociology of agriculture and food systems from the 1970s to the present. The course focuses on theory and research that seeks to understand the evolution of the agricultural system; public agricultural research and the Land Grant system; the diffusion and adoption of agricultural innovations; the impacts of agricultural change; consolidation and power in the food and agriculture system; farm size and communities, and workers; commodities, consumption, and culture; gender, race, class; sustainable agriculture, and the role of consumers in transforming the agro-food system; critiques of alternative agrofood movements; and gender, race, class, and food justice. This course exposes students to the varied research designs and methods used by social scientist who study agriculture and food systems topics. The course focuses primarily on U.S. agriculture and food systems.

Course learning outcomes

By the end of this course, students should successfully be able to:

1. Describe some of the major theoretical perspectives for interpreting agricultural change of the last 45 years;
2. Describe what is meant by the structure of agriculture and explain some of the changes and consequences of change in the structure of agriculture;
3. Understand how race, gender, class and ethnicity intersect in the food and agriculture system;
4. Become familiar with contemporary global food system challenges, including food security/sovereignty, and environmental issues;
5. Describe key features of the alternative food system movement and Civic Agriculture and evaluate the meanings and strategies of each;
6. Identify various intersections of the state, capital, and society in the food system and explain how the actions/interests of each component contest, counteract, or complement those of others.

Course Background:

This course will give students an opportunity to learn about changes in the agricultural and food system. With this information they will be empowered to more critically consider the practical and policy implications of agricultural change for nations, communities, families and individuals. This course provides foundational knowledge to graduate students interested in the specialized knowledge of the sociology of agriculture and food systems; to graduate and undergraduate students it also provides sociological insight into understanding contemporary agriculture and food system change, and introduces students to the social dimensions of achieving a more sustainable food and agricultural system.

Course Overview:

The course can be divided into several sections, with the first focusing on some of the overarching theoretical perspectives for studying the sociology of agriculture; the second focusing on contemporary issues of global food and agricultural change; and the third section focusing on proposed solutions, alternatives, and social movements for affecting change in the food system. This semester, we are studying the food and agriculture in the midst of the COVID-19 pandemic and increased focus on race and justice. The events taking place in recent months are directly connected to our study of the food system, and class discussions will purposefully examine how current events are connected to course themes.

The course begins by exploring the “New” Sociology of Agriculture, reviewing literature related to the political economy of agriculture, agricultural industrialization and the Goldschmidt Hypothesis, and commodity chain analysis. We then examine food regimes, followed by governance of the food system, with a consideration the intersecting motivations of the state, capital, and society. The source material in this section of the course will be a range of journal articles and chapters.

The course then explores social problems related to food and agriculture's relationship to the environment, globalization, global food security, and malnutrition. We give particular attention to the intersection of global capital with global food security.

The focus then shifts to considering possible solutions to the above issues. We consider the role of consumers and consumption, institutional buying, the alternative agricultural movement, as well as the emergence of Civic Agriculture and its underpinnings and goals.

It is important to note that the scholarship and study of the U.S. food and agriculture system includes approaches and perspectives based in rural sociology, rural geography, agricultural economics, and a wider range of disciplines, actors, perspectives, theories and methods. Each discipline/group approaches the subject matter differently, and we cannot do justice to any one of these in one class. However, we will work to understand the key social processes the scholarly literature seeks to capture, explore leading debates on agrifood systems and conceptual frameworks we use to interpret them. Readings will address the interplay between various actors in the food system from both a historical and contemporary perspective.

HOW THIS COURSE WORKS

Mode of delivery: This course meets in person once a week. I am a Wooster based faculty member, and some weeks when we will meet synchronously on-line.

- The class will meet live, synchronously together from 12:40 pm-3:40 pm every week.
- This course will include pre-recorded lectures that should be watched before the online synchronous discussion.
- Students are expected to keep pace with weekly deadlines and are expected to have read all assigned readings and be prepared to actively participate in synchronous activities.

Credit hours and work expectations: This is a **3-credit-hour course**. According to Ohio State policy (go.osu.edu/credithours), students should expect around 3 hours per week of time spent on direct instruction (instructor content and Carmen activities, for example) in addition to 6 hours of homework (reading and assignment preparation, for example) to receive a grade of (C) average.

Attendance and participation requirements: Because this is an online course, your attendance is based on your online activity and participation. The following is a summary of students' expected participation:

- **Participating in online activities for attendance: WATCH PRE-RECORDED LECTURES (ASYNCHRONOUS) AND ATTEND ALL SYNCHRONOUS MEETINGS**
You are expected to log in to the course in Carmen every week. (During most weeks

you will probably log in many times.) If you have a situation that might cause you to miss an entire week of class, discuss it with me *as soon as possible*.

- **Live sessions: REQUIRED**
All live, scheduled events for the course are required.
- **Office Hours: OPTIONAL**
I will be offering hours once a week, and by appointment.

COURSE MATERIALS AND TECHNOLOGIES

Materials

We will use Ketso Connect in Class for some group activities. Dr. Inwood will provide the Ketso for in class use. Ketso is a learning assistance tool, students will still need to take notes in class.

Textbooks

Recommended/Optional Texts

Several chapters will be used from the following volumes, although each text has additional content of possible interest.

Bailey, Connor, Leif Jensen, and Elizabeth Ransom. Eds. 2014. Rural America in a Globalizing World: Problems and Prospects for the 2010s. Morgantown, WV: West Virginia University Press.

Campbell, H. 2020. Farming Inside Invisible Worlds: Modernist Agriculture and Its Consequences. Bloomsbury Academic: London.

Carolan, Michael. 2016. The Sociology of Food and Agriculture. Second Edition. New York: Routledge.

Hightower, Jim. 1973. Hard Tomatoes, Hard Times: A Report of the Agribusiness Accountability Project on the Failure of America's Land Grant College Complex. Schenkman Publishing.

Holmes, Seth. 2014. Broken Bodies Fresh Fruit, Broken Bodies Migrant Farmworkers in the United States. University of California Press

Howard, Philip H. Concentration and Power in the Food System: Who Controls What We Eat? 2016. London: Bloomsbury Academic.

All or most readings are available for you to download directly from Canvas (the system that replace Carmen in 2016). If a reading is not posted on Canvas/Carmen please download it via the OSU Library electronic journal system.

Other Requirements

- Students will be required to attend the OSU Farm Science Review in London, Ohio. There will be a required written assignment that requires attending a portion of the Farm Science Review. Additional information will be provided about the assignment.

Course technology

Technology support

For help with your password, university email, Carmen, or any other technology issues, questions, or requests, contact the Ohio State IT Service Desk. Standard support hours are available at ocio.osu.edu/help/hours, and support for urgent issues is available 24/7.

- **Self-Service and Chat support:** ocio.osu.edu/help
- **Phone:** 614-688-4357(HELP)
- **Email:** servicedesk@osu.edu
- **TDD:** 614-688-8743

Technology skills needed for this course

- Basic computer and web-browsing skills
- Navigating Carmen (go.osu.edu/canvasstudent)
- CarmenZoom virtual meetings (go.osu.edu/zoom-meetings)
- Recording a slide presentation with audio narration (go.osu.edu/video-assignment-guide)
- Recording, editing, and uploading video (go.osu.edu/video-assignment-guide)

Required equipment

- Computer: current Mac (MacOs) or PC (Windows 10) with high-speed internet connection
- Webcam: built-in or external webcam, fully installed and tested
- Microphone: built-in laptop or tablet mic or external microphone
- Other: a mobile device (smartphone or tablet) to use for BuckeyePass authentication

Required software

- Microsoft Office 365: All Ohio State students are now eligible for free Microsoft Office 365. Full instructions for downloading and installation can be found at go.osu.edu/office365help.

Carmen access

You will need to use BuckeyePass (buckeyepass.osu.edu) multi-factor authentication to access your courses in Carmen. To ensure that you are able to connect to Carmen at all times, it is recommended that you take the following steps:

- Register multiple devices in case something happens to your primary device. Visit the BuckeyePass - Adding a Device help article for step-by-step instructions (go.osu.edu/add-device).
- Request passcodes to keep as a backup authentication option. When you see the Duo login screen on your computer, click **Enter a Passcode** and then click the **Text me new codes** button that appears. This will text you ten passcodes good for 365 days that can each be used once.
- Download the Duo Mobile application (go.osu.edu/install-duo) to all of your registered devices for the ability to generate one-time codes in the event that you lose cell, data, or Wi-Fi service

If none of these options will meet the needs of your situation, you can contact the IT Service Desk at 614-688-4357(HELP) and IT support staff will work out a solution with you.

GRADING AND FACULTY RESPONSE

How your grade is calculated

Classroom time will primarily focus on discussion of the course readings, with supplemental content provided through lectures or guest presentations. Assignments to be completed outside of class will facilitate in-class work.

Grades will be assessed according to student performance on several different assignments. The breakdown of each assignment's weight as a part of the final grade is as follows. There are a couple assignments unique to graduate students in the course and unique assignments for undergraduate students as well:

Undergraduate Students		Graduate Students	
Participation and Attendance	20%	Participation and Attendance	25%
2 Reaction Papers (15% each)	40%	1 Reaction Paper	15%
Farm Science Review Reflection	10%	Farm Science Review Reflection	10%
Book Review	25%	Book Review	20%
Lightening Talk	15%	Lightening Talk	10%
		Term Paper	20%
Total	100%	Total	100%

See course schedule below for due dates.

Descriptions of major course assignments

Assignments and Evaluation:

*Assignment due dates may change depending on the rate we move through the material. You will be given at least one week notice of a change in due date.

Participation:

Classroom participation will be judged according to: (1) activeness in the class discussion as well as (2) consistency of discussion participation and attendance, (3) quality of participation and (4) periodic short reflection assignments based on class readings and activities.

You can earn a large part of your grade based upon your performance in class. This requires that you are able to demonstrate that you have read the assigned material in advance, watched pre-recorded lectures, and that you are fully prepared to contribute to the class discussion. Quality is more important than quantity in what you have to say. As part of your class contribution, you may have short-in class assignments where you work with other students to demonstrate your ability to apply your knowledge in this class.

Grading criteria for what you earn from class participation are the following: (1) High quality class participation reflects thoughtful consideration of the required readings and course assignments, clearly demonstrating your knowledge, questions, and concerns about the topics introduced each week. *In class discussion, it is important to reference the readings.* (2) High quality class participation reflects an in-class assignment performance that provides excellent coverage of the points outlined in the assignment instructions. (3) High quality class participation reflects consistency in participation, which also means that you are present each class as well as the entire time for each class—and that you are devoting full-attention to the class. (4) High quality class participation means that you have fully prepared for the class in terms of the reading assignments and that you fully engage in the learning experience.

Your input to class discussion is very important. You are expected to attend all class sessions. Please do not come to class late or leave early, as this disrupts the learning experience for

other students. This course is based on in-class discussion and it includes group activities. Some participation points will come from in-class assignments. **If you have internet or technology issues, please let me know as soon as possible.** If you need to miss a class due to illness, please provide a written, physician's note so that your grade will not be affected. Please know that it is your responsibility to secure any missed material and notes from another student in the case you are ill.

Book review:

Undergraduate and Graduate students in the course are to identify an appropriate scholarly book (single authored or edited volume) related to the Sociology of Agriculture and Food Systems. You can consult with me for ideas, do your own literature review, or check out resources such as the database maintained by Phil Howard to identify possible books to review. See: https://creator.zoho.com/howardp/books-and-films/view-embed/CFA_books_and_films_View/

Once you have selected a book, you need to let Dr. Inwood know by October 10th the author and title of the book. Book reviews are to be submitted on or before November 15th to Dr. Inwood through Carmen.

Guidance for the contents of the book review is on CARMEN under Module 1 Week 1 and under Assignments.

Book Review Lightening:

Graduate and Undergraduate students will present a lightening talk of their book review. In no more than five minutes (practice ahead of time!), each student will tell the class: (a) descriptive information about his/her selected book (e.g., title, author name/affiliation, year); (b) brief content summary (e.g., key arguments, methods, conclusions); and (c) personal reaction and recommended readership.

This is an opportunity for the entire class to learn more about the book you reviewed, and will help build a community library of books related to the sociology of food and agriculture. Additionally, lightening talks are increasingly a popular presentation option at conferences. The short time presentation time forces a tight presentation, this is an opportunity for you to experiment and practice the lightening talk model, and should be approached as a professional development opportunity. **Presentations will occur over two class periods. The graduate students will present first on November 15th, providing a model and mentoring opportunity for undergraduate students who present on November 22nd.** Additional guidelines and presentation dates will be posted on CARMEN.

Reaction Papers:

Undergraduates will complete two reaction papers, each worth 20% of your final grade. These reaction papers will be an opportunity for graduate students to synthesize course readings and discussions. Additional information on the reaction papers will be posted on CARMEN.

Graduate Students will complete one reaction paper due October 25th.

Undergraduates will complete two reaction papers, the first due October 25th, the second due on the Final Exam Day, Thursday December 15th by 3:00 pm.

Graduate Student Final Term Paper:

For the final project graduate students will have the choice of preparing one of three paper options. All papers must be theoretically informed and be approximately 20 pages, typed, double-spaced, 12 point font. **Please let Dr. Inwood know which option you are selecting by October 10th. Papers are due on or before December 15th at 2:00pm.**

(A) A *comprehensive literature review* with explicit analysis of key concepts, theories, and/or debates. A literature review can take many forms: interpreting old material in a new light, tracing the intellectual history of a particular topic (including major debates), or evaluating the literature on a particular topic and offering advice to readers. Regardless of the type of literature review, I want to hear *your* voice in this paper! This option is appropriate for students wanting to explore particular agriculture or food systems topics via extensive reading in the social sciences. [1]
[SEP]

(B) A *research proposal* with the following sections: introduction, literature review, research questions/hypotheses, proposed methods, and project significance. This option is appropriate for students starting to plan out a Masters or Dissertation project. The instructor will be available to help students develop research questions/hypotheses and select appropriate research methods.

(C) An *original empirical research paper* with the following sections: introduction, literature review, research questions/hypotheses, methods, results/discussion, and project significance. This option is appropriate for students who have completed Masters or Dissertation research or students seeking to submit a manuscript (based on original research) for publication. The instructor will be available to advise students on preparing manuscripts for publication, selecting an appropriate journal, and other aspects of the manuscript submission/review process.

References/Citations

Use in-text citations for original material and quotations. Full references must also be listed again at the end of the document. Plagiarism will not be tolerated. When in doubt, make a reference and citation.

Wikipedia

Wikipedia and other online open topic contribution collectives are great places to start your search for references. If you find information you want in a Wikipedia article, then follow up and verify it by perusing the references at the bottom of the article. Those are the sources on which

to base your references and citations in your work.

Repeat: Wikipedia cannot be a citation in your references.

Academic Misconduct: Academic misconduct of any kind will not be tolerated.

Examples of academic misconduct include, but are not limited to, cases of plagiarism and dishonest practices in connection with examinations and laboratory exercises. See Code of Student Conduct: Rule 3335-31-02. This and other rules can be found in the Resource Guide for Students or in the back of the Student Telephone Directory. **Individual effort is expected on all assignments.** If you have a question about approaches and procedures that might constitute academic misconduct, see the instructor.

All papers will be reviewed through the CARMEN online plagiarism scan.

Statement about the availability of accommodations: If an accommodation based on the impact of a disability is needed, students should contact the instructor to arrange an appointment as soon as possible. At the appointment the course format can be discussed and any needs and potential accommodations can be anticipated. This class relies on the Office for Disability Services for assistance in verifying the need for accommodations and developing accommodation strategies. If students have not previously contacted the Office for Disability Services, they are encouraged to do so if appropriate to their needs. The office for Disability Services is at 150 Pomerene Hall; 292-3307; 292-0901 TDD.

Excused absences are those that are both valid and verifiable, such as a doctor's note for an illness. For any circumstances affecting your ability to participate fully in class (i.e. on-going medical or counseling treatment or the death of a friend or family member), please let us know.

OSU Links:

Office of Disability Services: <http://ods.osu.edu>

Center for the Study and Teaching of Writing: <http://cstw.osu.edu/writing-center>

Student Wellness Center: <http://swc.osu.edu>

Younkin Success Center: <http://younkinsuccess.osu.edu>

Counseling and Consultation Services: <http://www.ccs.osu.edu>

Student Athletes: In order to be excused, student athletes must bring in appropriate documentation in advance of scheduling conflicts. We expect these to be handed in within the first two weeks of class. It is the responsibility of student athletes to make up the missed work.

Observance of Religious Holidays: Students have the right to practice the religion of their choice. If you need to miss class to observe a religious holiday, please submit the dates of your absence to the instructor in writing by the end of the second week of classes. You are permitted to make up work within a mutually agreeable time.

Lectures: Power points will not be posted after class. Students should take handwritten notes. Along with your class and reading notes, you should use class presentations as a study guide for the exams.

Classroom Electronics Policy: RS 5530 is combination lecture-discussion course. Research increasingly shows that students learn better when they take hand-written notes and are not distracted by electronic devices. **We will take a digital detox and take hand written notes during synchronous class time.**

Cell phone calls, emailing, and text-messaging are strictly prohibited during class unless you have an emergency call that you have notified the instructors about prior to the beginning of class. Students who do not follow this policy will not earn participation points and may face further actions at the discretion of the instructors.

Reposting Class Materials: Class materials (including but not limited to videos, power points, photos, quizzes/exams, notes or similar materials) may not be posted online or republished without written permission from the instructor. All power points and lecture videos are copy righted by OSU.

Students joining after the first class: Students who join after the first class are still responsible for all previous assignments and readings which can all be found on Carmen. Due dates for past assignments for those students who enrolled late will be posted on Carmen. Please email or talk to Dr. Inwood if you have any questions about these assignments.

Late assignments

The final grade of all late assignments will be docked by 10% for each day late, or at the discretion of the instructor. After one week, late assignments will not be accepted unless prior approval has been received from the instructor.

Grading scale

93–100: A	87–89.9: B+	77–79.9: C+	67–69.9: D+
90–92.9: A-	83–86.9: B	73–76.9: C	60–66.9: D
	80–82.9: B-	70–72.9: C-	Below 60: E

Instructor feedback and response time

I am providing the following list to give you an idea of my intended availability throughout the course. (Remember that you can call **614-688-4357(HELP)** at any time if you have a technical problem.)

- **Grading and feedback:** For large weekly assignments, you can generally expect feedback within **7 days**.
- **Email:** I will reply to emails within **24 hours on school days when class is in session at the university**.
- **All emails related to this course must be sent from your OSU email account and must include a subject line that begins “5530” followed by the purpose of your email.**

OTHER COURSE POLICIES

Building a Class Community: Discussion and communication guidelines

The following are my expectations for how we should communicate as a class. Above all, please remember to be respectful and thoughtful.

- **Tone and civility:** Let's maintain a supportive learning community where everyone feels safe and where people can disagree amicably. Remember that sarcasm doesn't always come across in-person or online.
- **Preparing to talk:** Crafting your point or question is a skill that we are all building and practicing in class. Find room in your notebook to jot down notes and formulate your observation or question. When you are ready to share to the group, you'll have some notes to refer back to and you can be confident that you've communicated the core idea or concept you wanted to.
- **Citing your sources:** When we have academic discussions, please cite your sources to back up what you say. For the textbook or other course materials, list at least the title and page numbers. For online sources, include a link.
- **Backing up your work:** Consider composing your academic posts in a word document, where you can save your work, and then copying into the Carmen discussion.
- **COVID-19 and Mask Policy. We will follow the OSU COVID-19 Safety Guidelines.** <https://safeandhealthy.osu.edu/personal-protection-hygiene> Currently masks are optional in most settings on OSU campuses. **If you test positive or are exposed to COVID-19:** Individuals must follow [U.S. Centers for Disease Control guidelines \(link is external\)](#) — including those related to wearing a mask.

Some of our interactions in this class will occur through Zoom videoconferencing. Because this mode of discussion has benefits and challenges that differ from in-person class sessions, I want to share my expectations for how we will meet and communicate:

- Come to the session having completed pre-work and ready to have open, civil, and supportive discussions in video and chat spaces.
- Be present during the entire class session.
- I ask that you update your Zoom profile with your preferred name and add a picture with your face.
- Share your faces on camera so that we can see each other and connect.
- Please feel encouraged to use a non-distracting [virtual background](#). Many students and instructors prefer not to share their remote spaces for a variety of reasons.
- Mute your microphone when others are talking to minimize background noise in the meeting.
- Please raise your hand when you'd like to signal the instructor you would like to speak.

If you have any concerns about participating in class over Zoom in this way, please let me know. My goal is to create a safe environment where we can benefit from seeing each other and connecting, but I want to prioritize your safety and well-being.

Academic integrity policy

See **Descriptions of major course assignments**, above, for my specific guidelines about collaboration and academic integrity in the context of this online class.

Ohio State's academic integrity policy

Academic integrity is essential to maintaining an environment that fosters excellence in teaching, research, and other educational and scholarly activities. Thus, The Ohio State University and the Committee on Academic Misconduct (COAM) expect that all students have read and understand the university's *Code of Student Conduct* (studentconduct.osu.edu), and that all students will complete all academic and scholarly assignments with fairness and honesty. Students must recognize that failure to follow the rules and guidelines established in the university's *Code of Student Conduct* and this syllabus may constitute "Academic Misconduct."

The Ohio State University's *Code of Student Conduct* (Section 3335-23-04) defines academic misconduct as: "Any activity that tends to compromise the academic integrity of the university or subvert the educational process." Examples of academic misconduct include (but are not limited to) plagiarism, collusion (unauthorized collaboration), copying the work of another student, and possession of unauthorized materials during an examination. Ignorance of the university's *Code of Student Conduct* is never considered an excuse for academic misconduct, so I recommend that you review the *Code of Student Conduct* and, specifically, the sections dealing with academic misconduct.

If I suspect that a student has committed academic misconduct in this course, I am obligated by university rules to report my suspicions to the Committee on Academic Misconduct. If COAM determines that you have violated the university's *Code of Student Conduct* (i.e., committed academic misconduct), the sanctions for the misconduct could include a failing grade in this course and suspension or dismissal from the university.

If you have any questions about the above policy or what constitutes academic misconduct in this course, please contact me.

Other sources of information on academic misconduct (integrity) to which you can refer include:

- Committee on Academic Misconduct web page (go.osu.edu/coam)
- Ten Suggestions for Preserving Academic Integrity (go.osu.edu/ten-suggestions)
- Eight Cardinal Rules of Academic Integrity (go.osu.edu/cardinal-rules)

Copyright for instructional materials

The materials used in connection with this course may be subject to copyright protection and are only for the use of students officially enrolled in the course for the educational purposes associated with the course. Copyright law must be considered before copying, retaining, or disseminating materials outside of the course.

Statement on Title IX

All students and employees at Ohio State have the right to work and learn in an environment free from harassment and discrimination based on sex or gender, and the university can arrange interim measures, provide support resources, and explain investigation options, including referral to confidential resources.

If you or someone you know has been harassed or discriminated against based on your sex or gender, including sexual harassment, sexual assault, relationship violence, stalking, or sexual exploitation, you may find information about your rights and options at titleix.osu.edu or by contacting the Ohio State Title IX Coordinator at titleix@osu.edu. Title IX is part of the Office of Institutional Equity (OIE) at Ohio State, which responds to all bias-motivated incidents of harassment and discrimination, such as race, religion, national origin and disability. For more information on OIE, visit equity.osu.edu or email equity@osu.edu.

To report harassment, discrimination, sexual misconduct, or retaliation and/or seek confidential and non-confidential resources and supportive measures, contact the Office of Institutional Equity:

1. Online reporting form at equity.osu.edu,
2. Call 614-247-5838 or TTY 614-688-8605,
3. Or Email equity@osu.edu

The university is committed to stopping sexual misconduct, preventing its recurrence, eliminating any hostile environment, and remedying its discriminatory effects. All university employees have reporting responsibilities to the Office of Institutional Equity to ensure the university can take appropriate action:

All university employees, except those exempted by legal privilege of confidentiality or expressly identified as a confidential reporter, have an obligation to report incidents of sexual assault immediately. The following employees have an obligation to report all other forms of sexual misconduct as soon as practicable but at most within five workdays of becoming aware of such information: 1. Any human resource professional (HRP); 2. Anyone who supervises faculty, staff, students, or volunteers; 3. Chair/director; and 4. Faculty member.

This course adheres to The Principles of Community adopted by the College of Food, Agricultural, and Environmental Sciences. These principles are located on the Carmen site for this course; and can also be found at <https://go.osu.edu/principlesofcommunity>. For additional information on Diversity, Equity, and Inclusion in CFAES, contact the CFAES Office for Diversity, Equity, and Inclusion (<https://equityandinclusion.cfaes.ohio-state.edu/>). If you have been a victim of or a witness to a bias incident, you can report it online and anonymously (if you choose) at <https://studentlife.osu.edu/bias/report-a-bias-incident.aspx>.

Commitment to a diverse and inclusive learning environment

The Ohio State University affirms the importance and value of diversity in the student body. Our programs and curricula reflect our multicultural society and global economy and seek to provide opportunities for students to learn more about persons who are different from them. We are committed to maintaining a community that recognizes and values the inherent worth and dignity of every person; fosters sensitivity, understanding, and mutual respect among each member of our community; and encourages each individual to strive to reach his or her own potential. Discrimination against any individual based upon protected status, which is defined as age, color, disability, gender identity or expression, national origin, race, religion, sex, sexual orientation, or veteran status, is prohibited.

Your mental health

As a student you may experience a range of issues that can cause barriers to learning, such as strained relationships, increased anxiety, alcohol/drug problems, feeling down, difficulty concentrating and/or lack of motivation. These mental health concerns or stressful events may

lead to diminished academic performance or reduce a student's ability to participate in daily activities. No matter where you are engaged in distance learning, The Ohio State University's Student Life Counseling and Consultation Service (CCS) is here to support you. If you find yourself feeling isolated, anxious or overwhelmed, on-demand resources are available at go.osu.edu/ccsondemand. You can reach an on-call counselor when CCS is closed at 614-292-5766, and 24-hour emergency help is also available through the 24/7 National Prevention Hotline at 1-800-273-TALK or at suicidepreventionlifeline.org. The Ohio State Wellness app is also a great resource available at go.osu.edu/wellnessapp.

David Wirt, wirt.9@osu.edu, is the CFAES embedded mental health counselor. He is available for new consultations and to establish routine care. To schedule with David, please call 614-292-5766. Students should mention their affiliation with CFAES when setting up a phone screening.

ACCESSIBILITY ACCOMMODATIONS FOR STUDENTS WITH DISABILITIES

Requesting accommodations

The university strives to make all learning experiences as accessible as possible. If you anticipate or experience academic barriers based on your disability including mental health, chronic or temporary medical conditions, please let me know immediately so that we can privately discuss options. To establish reasonable accommodations, I may request that you register with Student Life Disability Services. After registration, make arrangements with me as soon as possible to discuss your accommodations so that they may be implemented in a timely fashion. **SLDS contact information:** slds@osu.edu; 614-292-3307; 098 Baker Hall, 113 W. 12th Avenue.

Accessibility of course technology

This online course requires use of CarmenCanvas (Ohio State's learning management system) and other online communication and multimedia tools. If you need additional services to use these technologies, please request accommodations with your instructor.

- Canvas accessibility (go.osu.edu/canvas-accessibility)
- Streaming audio and video
- CarmenZoom accessibility (go.osu.edu/zoom-accessibility)
- Collaborative course tools

COURSE SCHEDULE

Refer to the Carmen course for up-to-date assignment readings and due dates.

*Location may change from In-Person to Zoom – at least 4 days notice will be provided

Date	Location	Topic
August 23	In-Person	Introduction to the Sociology of Agriculture and Food Systems
Part 1. Research Theories and Themes: 1970s to Present		
August 30	Zoom	The Agrarian Question and Beyond
September 6	In-Person	Agriculture in Modernity
