Office hours: By appointment

Prerequisites
Junior, senior, or graduate level standing, or permission of instructor.

Differential Expectations for Undergraduate and Graduate students
As a 5000-level course, ENR 5210 serves both undergraduate and graduate students. Differential expectations for graduate students may include leadership roles in the team-based case study project that takes place over the semester. Graduate students are expected to produce content and delivery of content for the case study research that shows an exceptional understanding of material and they often serve as team leader or team editor during the team video research, production, and delivery. The instructor will discuss with each graduate student opportunities to serve in a leadership role and to perform more in-depth research for the case study topic to determine if this aligns with the graduate student’s interests and graduate study goals.
Course description

Social Impact Assessment (SIA) is the process of analyzing, monitoring, and managing the intended and unintended social consequences of policies, programs, and/or projects at the local and regional level. Its primary purpose is to bring about a more sustainable and equitable biophysical and human environment by informing both the local community and the policy makers of the social impact of a project and/or policy development so that effective decision making, preparation and mitigation can be made.

SIAs are commonly and routinely performed in many instances in the United States and around the world, although many are unaware of the importance or usefulness of these documents. They are required if the project or proposal is managed or supported by agencies such as the World Bank, the United Nations, USAID, US Federal Government, and is additionally mandated by many other national, state, and local governments.

This course provides students with a broad understanding of the fundamental history, concepts, methods, and theories of Social Impact Assessment in both U.S. and International contexts. Students are exposed, via scholarly articles and case studies, to existing social impact analyses from across the US and the World. Through lecture, online group discussion, readings, as well as student-authored essays, reports, and video presentations, students gain an understanding of how quality social impact assessments are performed.

This is a completely online course that will deliver content, quizzes, homework, exams, and student presentations and discussions through Ohio State’s Carmen system (https://carmen.osu.edu/).

Course learning outcomes

By the end of this course, students should successfully be able to:

- **describe** the historical context and development of SIA,
- Correctly **use** the terms and concepts of Social Impact Assessment, both in the US and internationally
- **situ ate** SIA within the larger context of community planning and project implementation,
- **critically evaluate** existing SIA documents, and
- **apply** the knowledge and skills needed to **perform** an SIA at the community level.
COURSE MATERIALS AND TECHNOLOGIES

Assigned readings: This class utilizes additional course readings, which primarily include academic journal articles and real-world Social Impact Assessment case studies. All additional assigned readings and materials will be posted on the RS 5580 Carmen page. Each assigned reading indicates the date by which it should be read. It is important to keep up with the readings.

<td>This is a discussion-based class that is not designed around lecture. Each week students are expected to perform the readings and other material, and post a video or essay-based reaction to the readings and other class material, responding to prompts that are given to you. Even though this is an online class, you should “come to class” prepared and able to engage in thoughtful and in-depth discussion and analysis that one would expect in a senior undergraduate or graduate school-level seminar room. <strong>Graduate students</strong>: Each graduate student is expected to work with the instructor to organize and lead class discussion for 1 week during the semester. This will involve posting additional readings, designing activities, and/or posting questions and/or discussion prompts for classmates to engage.</td>

Rubric for Asynchronous Discussion Participation

Asynchronous discussion enhances learning as you share your ideas, perspectives, and experiences with the class. You develop and refine your thoughts through the writing process, plus broaden your classmates' understanding of the course content. Use the following feedback to improve the quality of your discussion contributions. Adapted from Rubric for Asynchronous Discussion Participation (http://www1.udel.edu/janet/MARC2006/rubric.html)

Social Impact Assessment Analysis/Critique

Identify an existing SIA and obtain approval from instructor. Provide a written critical analysis of the document and also present your findings to class in the form of an uploaded video/narrated PowerPoint. More details and rubric will be provided.

Final Project

This is a written and oral report that involves four main criteria: a) Identify and extensively research the background and parameters of a real-life proposed (or recently implemented) developmental policy, land use change, industrial development, or other relevant action; b) Using concepts and methods learned in class, design a research program to assess the social impact of this development. Include the categories of impact to be assessed, indicators used to reflect each impact category, methodologies to test these indicators, etc. c) Using extensive background research of the project and/or performing secondary data collection as appropriate, report your findings of the SIA (the types of impact, or ranges of impact, that you would might likely find if the research was performed) d) Design an appropriate and reasonable monitoring program and mitigation strategies to monitor and, if needed, alleviate the types of social impact predicted. Each student will present their findings to class in the form of an uploaded video/narrated PowerPoint. Additional information, directions, and rubric will be provided.

**Faculty feedback and response time**
I am providing the following list to give you an idea of my intended availability throughout the course. (Remember that you can call 614-688-HELP at any time if you have a technical problem.)

- **Grading and feedback:** For large assignments, you can generally expect feedback within **7 calendar days**.
- **E-mail:** I will reply to e-mails within **48 hours on school days**. For the fastest response, please send me an EMAIL (Jacquet.8@osu.edu) and NOT a Carmen message.

## PARTICIPATION AND ATTENDANCE

### Student participation requirements

Because this is a distance-education course, your attendance is based on your online activity and participation. The following is a summary of everyone's expected participation:

- **Logging in:** **AT LEAST ONCE PER WEEK**
  Be sure you are logging in to the course in Carmen each week, including weeks with holidays or weeks with minimal online course activity. (During most weeks you will probably log in many times.)

### Discussion and communication guidelines

The following are my expectations for how we should communicate as a class. Above all, please remember to be respectful and thoughtful.

- **Writing style:** While there is no need to participate in class discussions as if you were writing a research paper, you should remember to write using good grammar, spelling, and punctuation. A more conversational tone is fine for non-academic topics.
- **Tone and civility:** Let's maintain a supportive learning community where everyone feels safe and where people can disagree amicably. Remember that sarcasm doesn't always come across online.
- **Citing your sources:** When we have academic discussions, please cite your sources to back up what you say. (For the textbook or other course materials, list at least the title and page numbers. For online sources, include a link.)
OTHER COURSE POLICIES

Academic integrity policy

POLICIES FOR THIS ONLINE COURSE

- **Quizzes, homework, and exams**: You must take all quizzes, homework and exams yourself, without any external help or communication.
- **Student video presentation and associated assignments**: Your student video presentation contribution and your contribution to associated assignments, including discussion posts, should be your own original work.

OHIO STATE’S ACADEMIC INTEGRITY POLICY

Academic integrity is essential to maintaining an environment that fosters excellence in teaching, research, and other educational and scholarly activities. Thus, The Ohio State University and the Committee on Academic Misconduct (COAM) expect that all students have read and understand the University’s *Code of Student Conduct*, and that all students will complete all academic and scholarly assignments with fairness and honesty. Students must recognize that failure to follow the rules and guidelines established in the University’s *Code of Student Conduct* and this syllabus may constitute “Academic Misconduct.”

The Ohio State University’s *Code of Student Conduct* (Section 3335-23-04) defines academic misconduct as: “Any activity that tends to compromise the academic integrity of the University, or subvert the educational process.” Examples of academic misconduct include (but are not limited to) plagiarism, collusion (unauthorized collaboration), copying the work of another student, and possession of unauthorized materials during an examination. Ignorance of the University’s *Code of Student Conduct* is never considered an “excuse” for academic misconduct, so I recommend that you review the *Code of Student Conduct* and, specifically, the sections dealing with academic misconduct.

If I suspect that a student has committed academic misconduct in this course, I am obligated by University Rules to report my suspicions to the Committee on Academic Misconduct. If COAM determines that you have violated the University’s *Code of Student Conduct* (i.e., committed academic misconduct), the sanctions for the misconduct could include a failing grade in this course and suspension or dismissal from the University.

If you have any questions about the above policy or what constitutes academic misconduct in this course, please contact me.
Other sources of information on academic misconduct (integrity) to which you can refer include:

Copyright law must be considered before copying, retaining, or disseminating materials outside of the course.

Statement on title IX

Title IX makes it clear that violence and harassment based on sex and gender are Civil Rights offenses subject to the same kinds of accountability and the same kinds of support applied to offenses against other protected categories (e.g., race). If you or someone you know has been sexually harassed or assaulted, you may find the appropriate resources at [http://titleix.osu.edu](http://titleix.osu.edu) or by contacting the Ohio State Title IX Coordinator, Kellie Brennan, at [titleix@osu.edu](mailto:titleix@osu.edu)

Your mental health

A recent American College Health Survey found stress, sleep problems, anxiety, depression, interpersonal concerns, death of a significant other and alcohol use among the top ten health impediments to academic performance. Students experiencing personal problems or situational crises during the quarter are encouraged to contact the College of Pharmacy Office of Student Services in room 150 Parks Hall (614-292-5001) OR OSU Counseling and Consultation Services (614-292-5766) for assistance, support and advocacy. This service is free and confidential.

Grievances and Solving Problems:

According to University Policies, if you have a problem with this class, you should seek to resolve the grievance concerning a grade or academic practice by speaking first with the instructor or professor. Then, if necessary, take your case to the department chairperson, college dean or associate dean, and to the provost, in that order. Specific procedures are outlined in Faculty Rule 3335-7-23. Grievances against graduate, research, and teaching assistants should be submitted first to the supervising instructor, then to the chairperson of the assistant's department.
Diversity:

The Ohio State University affirms the importance and value of diversity in the student body. Our programs and curricula reflect our multicultural society and global economy and seek to provide opportunities for students to learn more about persons who are different from them. We are committed to maintaining a community that recognizes and values the inherent worth and dignity of every person; fosters sensitivity, understanding, and mutual respect among each member of our community; and encourages each individual to strive to reach his or her own potential. Discrimination against any individual based upon protected status, which is defined as age, color, disability, gender identity or expression, national origin, race, religion, sex, sexual orientation, or veteran status, is prohibited.

ACCESSIBILITY ACCOMMODATIONS FOR STUDENTS WITH DISABILITIES

Requesting accommodations

The University strives to make all learning experiences as accessible as possible. If you anticipate or experience academic barriers based on your disability (including mental health, chronic or temporary medical conditions), please let me know immediately so that we can privately discuss options. To establish reasonable accommodations, I may request that you register with Student Life Disability Services. After registration, make arrangements with me as soon as possible to discuss your accommodations so that they may be implemented in a timely fashion. SLDS contact information: 614-292-3307; slds.osu.edu; 098 Baker Hall, 113 W. 12th Avenue.

Accessibility of course technology

This online course requires use of Carmen (Ohio State's learning management system) and other online communication and multimedia tools. If you need additional services to use these technologies, please request accommodations with your instructor.
